[Disclosure Based on the Principles of the Corporate Governance Code] Updated

[Principle 1.4 Policy concerning Cross-Shareholdings]

1. Kureha holds shares of transaction partners when it is deemed beneficial in terms of the enhancement of the Company's medium- and long-term corporate value from the perspective of its business transaction status to date and possibilities for the future expansion of transactions. Each year, the Board of Directors comprehensively considers the purpose of cross-shareholdings, the benefits and risks associated with such cross-shareholdings, the cost of capital, etc., and reviews the appropriateness of future holding of such shares of stock. With the aim of reducing the ratio of the amount held (in total) to about 5% of consolidated net assets by FY2030, Kureha will gradually reduce the number of shares that are no longer significant for Kureha to hold or whose holdings are excessive based on a comprehensive consideration of factors such as dialogue with companies in business relationships, the impact on the market, and availability of effective use of funds. As of March 31, 2025, Kureha holds shares of 36 listed and unlisted companies in business relationships (a decrease of 12 companies since the end of FY2024).
2. The exercising of voting rights for cross-held shares is determined on the basis of whether or not voting contributes to Kureha's purpose of cross-shareholdings.

[Principle 1.7 Disclosure of Appropriate Procedure and Framework for Related Party Transactions]

The Company stipulates that, under the Board of Directors Rules, the Board of Directors must approve transactions conducted by Directors if these transactions may compete or cause conflicts with the Company's interests, and the results of those transactions must be reported to the Board of Directors.

The evaluation of the effectiveness of the Board of Directors in FY2024 confirmed that the effectiveness of the Board of Directors as a whole was adequately maintained. Regarding the need to improve how the Board of Directors meetings are run, which was recognized as an issue as a result of the evaluation of the effectiveness in FY2023, more time was allocated to discussion rather than reporting. As a result, improvement was recognized. On the other hand, there was an opinion that more in-depth discussions are needed on the status of major businesses and future initiatives, sustainability issues, and the business portfolio.

In FY2025, the status of major businesses and future initiatives will be discussed as themes continued from FY2024, while sustainability issues and the business portfolio will be discussed as themes for FY2025. In addition to these themes, deliberations will be deepened with a focus on the themes that were specified in open-ended comments as themes to be discussed at Board of Directors meetings in FY2025, such as management that is conscious of cost of capital and stock price, the revival as a technology-driven company, and formulation of the next med-term management plan.

[Action to Implement Management That Is Conscious of Cost of Capital and Stock Price]

Content of disclosure	Disclosure of initiatives
Availability of English disclosure	Available
Date of disclosure update Updated	June 27, 2025

Explanation of actions **Updated**

In the "Kureha Group Mid- to Long-term Management Plan, the Rolling Plan 2025" formulated in FY2024, the Group set not only earnings targets but also key performance indicators, namely, a return on equity (ROE) of 8% or higher and a price-to-book ratio (PBR) of 1.0x or higher, and has promoted management that emphasizes return on capital in order to realize management that is conscious of cost of capital and stock price. However,

ROE for FY2024 was 3.6%, and PBR as of March 31, 2025 was 0.7x, indicating that improvements are needed. Because PBR is expressed as the product of ROE and PER, we are promoting the following initiatives to improve these indicators.

[Toward ROE improvement]

Regarding the numerator (profit) of ROE, we will concentrate research and development resources on our mainstay PVDF and PGA businesses to expand business and improve profitability through the development of new products and new grades. In other existing businesses, we will continue to thoroughly implement business expansion measures to strengthen the profit base, thereby working toward the company-wide “enhancement of earning power.”

With respect to the denominator (equity) of ROE, having set a target equity ratio of around 50%, we have implemented measures to return profits to shareholders. In FY2025, we changed the dividend standard from the conventional policy based on a dividend payout ratio and a total return ratio to a consolidated dividend on equity ratio (DOE) with the aim of ensuring more stable dividends. In FY2025 and FY2026, we will pay dividends with a target DOE of 5%. In addition, with respect to share buybacks, we further improved capital efficiency by increasing the target buyback amount for FY2025 stipulated in the “Kureha Group Mid- to Long-term Management Plan, the Rolling Plan 2025.” Through these shareholder return measures, we are promoting initiatives to achieve the target equity ratio.

Furthermore, we have decided to reduce cross-shareholdings, previously targeted at less than 10% of consolidated net assets, to about 5% of consolidated net assets by FY2030. We have also decided to sell other assets and are working to improve asset efficiency.

[Toward PER improvement]

To improve PER, we believe it is necessary not only to reduce the cost of capital through measures centering on the capital policy described above, but also to strengthen profitability, clarify growth strategies, and disclose information in a highly transparent manner. Specifically, we will strengthen profitability and revenue base by utilizing ROIC, clarify the growth strategies through the business portfolio, communicate our medium- to long-term growth potential through the development of new products and businesses that contribute to a sustainable society, and deepen mutual understanding and build a relationship of trust through active dialogue with our shareholders and investors. By doing so, we aim to obtain an appropriate evaluation from the market and to achieve continuous enhancement of corporate value.

For details of the Company’s initiatives, please refer to the FY2024 financial results presentation at https://www.kureha.co.jp/en/ir/pdf/FY2024_Results.pdf.
